University of Gastronomic Sciences
Piazza Vittorio Emanuele 9
12042 Bra – Pollenzo (CN)

office tel.: 0172-458509
lab tel.: 0172-458530

EDUCATION:

Research PhD in Food Biotechnology, Faculty of Agriculture, University of Milan, February 2008. Dissertation: *Evaluation of Light Effects of Light on Photosensitive Food Pigments and the Protection Efficacy of Packaging Solutions.*

Specialized BSc (five-year *laurea quinquennale* degree) in Food Science and Technology, Faculty of Agriculture, University of Milan, November 2002. Final grade: 110/110. Thesis: *Impact of Durum Wheat Pre-milling Debranning on Semolina and Pasta Quality.*

RESEARCH AREAS:

Post Doctorate: Febrary 2008 – present

Evaluation of the shelf life of fresh foods using sensory techniques, traditional analysis (chemical and microbiological indices), and innovative techniques (electronic nose and imaging analysis)

Doctorate: November 2004 – January 2008

Study on the sources of light used in Grande Distribuzione Organizzata to illuminate food products. Estimation of the effects of different light sources on the degradation of food pigments. Evaluation of light blocking offered by various plastic packaging materials using an innovative approach based on spectrophotometric and radiometric techniques.

Post-Undergraduate: January 2003 – October 2004

Research and development in packaging materials of industrial bread. Study of the odor of plastic packaging materials using analytic and sensory techniques.

Undergraduate: September 2001 – November 2002

Research pertaining to the use of pre-milling debranning on durum wheat. Evaluation of the quality of semolina and pasta obtained in both laboratory and industrial settings.

TEACHING:

Professor of the University of Gastronomic Sciences three-credit elective course, “Gastronomic Measurements,” (Pollenzo campus), which presents and illustrates the principles and methods of measuring qualitative characteristics of food and formulations using chemical-physical techniques (imaging analysis, olfactometry, electronic nose, textural and reologic analysis).

ACADEMICS:

July 2008 – present: Thesis advisor for graduating students in the three-year undergraduate program in Gastronomic Sciences at the University of Gastronomic Sciences (Pollenzo campus)

January 2003 – present: Thesis co-advisor for graduating students in the three-year undergraduate program in Food Technology and the two-year specialization degree in Food Science at the University of Milan, Faculty of Agriculture

OTHER APPOINTMENTS:

2007 – present: Sensory Analysis Laboratory Coordinator, University of Gastronomic Sciences (Pollenzo campus)

2004 – present: Managing Advisor for the Italian Scientific Group on Food Packaging (GSICA)

2006 – present: Correspondent for the technical journal, *Food Packages* (ed. Artek Snc)

DISTINCTIONS:

2003 Chiriotti Editori Prize for the best undergraduate thesis in Grain Science and Technology.

PROFESSIONAL ASSOCIATIONS:

1999 – present: Member of the Italian Association of Food Technology (AITA)

2004 – present: Founding Member and Managing Advisor for the Italian Scientific Group on Food Packaging (GSICA)
