Date of birth 10/04/1980 | Nationality Italian

PRESENT POSITION

Environmental Sustainability Officer and Food Manager at the Sustainability Division of the University of Turin and project manager of the Green Office (UniToGO). She works to provide operational support for the development and implementation of the University's Environmental Policy and aims for an environmentally sustainable estate as well as to develop policies and procedures to enable the University to fulfil its Environmental Policy and achieve continual improvement in environmental performance.

I am the operational contact point for the working group about Food of the Italian University Network for Sustainable Development. I am participating to the working group of the Italian Ministry for the Environment for the redaction of the minimum environmental criteria for awarding the catering service through the installation of food and beverage distributors within the "Action plan for the environmental sustainability of consumption in the public administration sector"

EDUCATION

- 2004-2008 **PhD in Analysis and Governance of Sustainable Development** – University Ca' Foscari-Venice. Thesis: The adoption and diffusion of agricultural biotechnology in Latin America countries: a sustainability analysis. Supervisor: Prof. Ignazio Musu. Thesis committee: Prof. Margherita Turvani, Prof. Anyi Markandya, Prof. Silvana Dalmazzone.
- 1999-2004 Degree in **International and Diplomatic Sciences**- Faculty of Political Sciences-University of Turin, Thesis: The privatisation of water resources. Supervisors: Prof. Silvana Dalmazzone and Prof. Piervincenzo Bondonio, 110/110 cum laude.

RECENT COURSES

- 2023 4, 27, 28 November, Training Course "Communicating Sustainability" 2nd Training Meeting 2023 Unicom Professional Community - Italian Association Of University Communicators
- 2022 –2023 (September-February) Training Course "Master Expert Ta - Valuing People 2022", University of Turin
- 2018 7-11 LAB – Project management/CODEX Fondazione CRC Cuneo
- 2014 9-12 Settembre, Summer School for research & project management, organized by the Common Strategic Task Force, University of Turin
- 2013 February-July Course of specialisation on Methods and Techniques for Sustainability Balance (70 hours) provided by ENGIM
-

OTHER PROFESSIONAL EXPERIENCES

January 2022	Project manager for the University of Gastronomic Sciences on the H2020 project School Food For Change. SchoolFood4Change is an EU-funded project, headed by ICLEI – Local Governments for Sustainability, co-created by a consortium of 43 European partners, including environmental and non-governmental organizations, local governments, scientists and research institutes, schools, chefs, meal professionals and health experts. The well-being of both our young people and our planet is a responsibility we all share. The four-year project (01/01/2022-31/12/2025) sets out to redefine what it means to eat healthily and sustainably at school, while also addressing food education at several levels. SF4C sees schools as catalysts for systemic and multi-actor change. It involves training cooks, caterers and public procurers at city level and aims to create a true ripple effect, impacting up to 2 million citizens in the 12 participating EU countries. The University of Gastronomic Sciences is the leader of the Work Package "Healthy and Planetary Diet and Cooking". UNISG wants to raise awareness to the importance of school chefs' roles in the school system and to strengthen their position in boosting healthy eating. To spread our message across schools we are realizing a train-the-trainer program to learn from each other's experience and get firsthand insights. The training is going to take place both in-person and online. A first group of 24 trained school chefs will be in charge of training their colleagues in the cities participating in the project.
December 2018-August 2022	Since December 2018, adviser for the University of Gastronomic Sciences on the LIFE FOSTER. The project aims at preventing and reducing the waste in the food service by working on three main fields: training & education, prevention culture, communication. Main activities: - Literature and scientific review; - Food experts interview; - Elaboration of training materials for food waste prevention and reduction; - Development of the web application Food Waste Flow Balance to monitor and evaluate food waste reduction.
July 2017-	Since July 2017, I am collaborating with Systemic Food Lab of the University of Gastronomic Sciences of Pollenzo at the project Circular Economy for Food. The Lab is mapping national and international company initiatives in the food and beverages sector and analysing them in order to have insight about the applications and spill overs of the circular economy actions for the food system.
June 2016-May 2017	Project Manager at Orti Generali, a Workpackage related to the wider MIUR Project SCN _ 00447 ADAPT "Accessible Data for Accessible Proto-Types in Social Sector" Smart Cities and Communities and Social Innovation. With the Association Coefficiente Clorofilla and Ca' Foscari University I work in this social innovation project of urban agriculture in Mirafiori Sud District in Turin. My activities were related with financial and activities reporting, partnership construction, research on the third sector in the area of social agriculture, use of civic tech within the urban garden community, fundraising.
April 2013 – October 2016	Project Manager at Dipartimento di Scienze Agrarie, Forestali e Alimentari (DISAFA) dell'Università degli Studi di Torino I worked on new approaches for the implementation of sustainable development into the Agro-food sector innovation by integrating environmental and social measurements and indicators. My research activities were mainly focused on the on the following topics: • Sustainability assessment by adopting environmental Life cycle Assessment methodology and integration of environmental indicators; • Combination of Environmental Life cycle assessment with other techniques for an integrated sustainability assessment (Social LCA, Life cycle costing); • Analysis of the structural change in agro-food supply chains applying social network theory
Avril 2016_July 2016	In collaboration with the National Waste Consortium Ricrea and Rilegno consultant for the expansion of the website Systemic Food Design http://www.systemicfooddesign.it/ by adding contents for 10 additional supply chain products. Systemic Food Design is an education tool that aims to increase the awareness about the complexity of the sustainability across the food supply chain

January 2014 – March 2014	Consultant for the Consumers Movement about the realisation of campaign (the website section macro-structure and content) on GMOs Focus, http://www.movimentoconsumatori.it/notizie/4182/focus-sugli-ogm.html funded by Consumers' Forum
July 2012 - March 2013	Financial manager at the Centro Nexa Internet & Società - Politecnico di Torino. Main tasks: • management of the reporting activities of the projects financed by the European Commission (VII Framework Programme ICT, Framework Program for Competitiveness and Innovation, CIP) and other istituzioni (Piedmont Region, Ministries ..); • Financial management of allocated budgets and monitoring and reporting on the state of progress of projects; - Coordination of international project partners for the financial aspects; - • support for logistics management and project meetings - contacts with the offices of the funding agencies of the projects (European Commission, Google, Ministry of Education, local authorities, foundations); • calls for research and financial tools to ensure the continuation of activities of the Centre (call of the VII Framework Programme call ICT and Science and Society; COST, CIP) preparation of applications for financing, networking
November 2009 - June 2012	Project Manager and scientific adviser (coordination and administration) at International Affairs Division of the Piedmont Region Project “Des Alpes au Sahel”. Topic: integration of sustainable development issues with environmental education and international solidarity, funded by EU, EuropAID. Main tasks: • coordination of Piedmontese French and African project partners; • contacts with the offices of the European Commission; • equipe support the project and to the Steering Committee in Piedmont and in France; • training starting from the themes of the project (development cooperation, environment, youth) for Europe-AID call, Youth in Action, EDULINK, ERASMUS, for teachers in primary and secondary schools and NGO staff, parks and other entities; • organization of workshops, seminars and International Forum to be held in Piedmont; • support to the Project Manager, for cover the external communication activities; • administrative and accounting monitoring (reporting, document preparation for audit, re-modulation of the budget) of the project activities for the European Commission; • content preparation for the final publication of the project and for the site of the project; • dissemination of the project results through the design / site management www.londootiloo.org and the organization of seminars-information workshops; • research calls and financial instruments to ensure the continuation of the path taken by the project (EuropeAid calls, Edulink, Youth in Action), preparation of funding applications, networking (the project was refinanced on the funding line EUROPEAID).
June 2011 – November 2011	Policy Adviser, Slow Food, Bra 2011-Operating Grant, funded by EU DG Environment- Slow Food, Bra. Main tasks: • elaboration of a position paper on biodiversity, including comments to the EU strategy on biodiversity for 2020 and analysis of best practices relating to the protection of food biodiversity http://www.slowfood.com/slowlife/wp-content/uploads/ENG-bio-paper.pdf; • monitoring of Community legislation regarding sources and related policies such as the CAP, fisheries policy, health and consumer affairs; • identification of the relevant documents with respect to interest policies; • preparation of internal documents to inform other services and associations belonging to the Slow Food International on developments in progress; • preparation of texts for the European Association news; • participation in working groups and / or preparation of documentation required for participation in advisory groups and working groups at the EU institutions.
May 2011 - March 2012	Consultant for the project “4cities4dev. Access to good, clean and fair food, funded by EU, EuropeAid/129200/C/ACT/TPS– City of Turin, Turin Production of a research report "Food communities in the action of SF in Africa: operating procedures and guidelines for evaluation and monitoring activities. The research work has been oriented to the construction of a theoretical framework and development of an empirical analysis of the sustainability (environmental / economic social) of the practices adopted in the last decade by Slow Food. http://www.slowfood.com/slowlife/wp-content/uploads/4C4D_FOOD_COMMUNITIES_MODEL.pdf
May 2010 – October 2010	Participation to the research project “ Ori dell’Africa” organized by the Centre for African Studies and co-funded by the Compagnia di San Paolo, Research report concerning the privatization of land issues (green gold, the recent phenomenon of the purchase of land race) and water (blue gold)
January 2009	Research grant holder at the Department of Territory – University of Turin on the project

Dicember 2009	“Resilience and natural disasters”, in collaboration with ITHACA , Information Technology for humanitarian assistance, Polytechnic of Turin. Tutors: Prof. Egidio Dansero and Prof. Pietro Boccardo. Analysis and implementation of how the concept of resilience adopted at different scales can support the prevention of natural disasters by integrating it with other technologies and tools (eg. Using satellite images, databases, use of indicators)
September 2007 - December 2008	Research grant holder at the 2007-2008 at the Department of Territory – Polytechnic of Turin on the project PARCO. Tutor: Prof. Egidio Dansero. in collaboration with the Protected areas and International Affairs Departments of the Piedmont Region within the project "Decentralized cooperation, protection of nature and territorial practices: a comparison between North and South representations of the world." The research, through a comparative and interdisciplinary approach, aimed to provide a theoretical / methodological contribution to the debate about the decentralized cooperation policies, with particular reference to environmental issues and nature protection. Field Survey: Within the project, I had a field research experience in Tanzania, close to the village of Uwiro (Arusha Region, Arumeru District), in the months of September, October and November 2008 where I work on the experience of decentralized cooperation the Natural Park of the Maritime Alps and the NGO Oikos institute
June 2007 – September 2009	Participation to the research project “The two emerging economic powers (China and India) and their relationship with the economy of Italy and the Piedmont Region” (Research project Alfieri-CRT), at the Dipartimento di Economia Cognetti de Martiis, Unito Analysis of Italian involvement in the Clean Development Mechanisms (CDMs) in the Kyoto Protocol for reducing greenhouse gas emissions with particular attention to the projects in China and India
Participation to research project	
2019 -	EIT Food Grand Challenge 3/ The development of organic supply chains that drive fair, transparent and healthy options for the consumer. I have written the proposal and member of the research team related to the task A11910 Assessment of consumer expectations regarding organic food
2018 -	APP-VERT, Apprendere per Produrre Verde Programma Transfrontaliero di Cooperazione Territoriale Europea Interreg V-A Italia - Francia (ALCOTRA) 2014-2020 coordinated by Città metropolitana di Torino. Member of the Scientific-Technical Committee to design curving curricula toward green economy for the professional schools
2017-2018	SPP Region: Sustainable Public Procurement-H2020 coordinated by ICLEI. SPP Regions was aimed at promoting the creation and expansion of European regional networks of municipalities working together on sustainable public procurement (SPP) and public procurement of innovation (PPI). The 7 networks involved in the project regional networks collaborated directly on tendering for eco-innovative solutions, whilst building capacities and transferring skills and knowledge through their SPP and PPI activities also in the sectors of food and catering services Within this H2020 project, UniTO has taken the opportunity to fundamentally rethink its vending machines concessions requirements in order to stimulate eco-innovation and to explore alternative procurement approach
2012-2016	Alternative Food Networks: An Interdisciplinary Assessment (AFNIA) funded by European Science Foundation - Call 3 - Strategic Research Grants, University of Torino
2013-2014	Réseau des Universités Sahéliennes pour la Sécurité Alimentaire et le Développement Durable (RUSSADE) funded by EU-Edulink-CISAO University of Turin
2012-2013	Systemic Food Design, funded by Comieco-University of Gastronomic Sciences, Pollenzo
2011-2012	Le comunità del cibo nell'azione di SF in Africa: modalità operative e indicazioni per la valutazione e il monitoraggio delle attività. La ricerca commissionata dal Comune di Torino nell'ambito del progetto EUROPAID “4cities4dev. Access to good, clean and fair food: the food communities' experience”
2009-2013	Des Alpes au Sahel, creazione di una rete transfrontaliera di scuole, parchi, città, ong, associazioni del Piemonte e di Rhône-Alpes per una educazione scolastica che integri l'attenzione all'Educazione Ambientale e allo Sviluppo Sostenibile con la dimensione della Solidarietà Internazionale, in particolare verso l'Africa Sub- sahariana”, co-finanziato dalla Commissione Europea, bando Europeaid "Attori non statali e autorità locali nello sviluppo
2009-2012	Décider en situation de crise : gestion de l'environnement , conflits et concertations” (DESCRI), Programme CDE, Concertation, décision, environnement, MEDDAT, Université de Tours France Department of Territory- Polytechnic of Turin and University of Turin
2008-2009	Resilience and natural disasters, funded by CRT Foundation- ITHACA, Information Technology for humanitarian assistance, Polytechnic of Turin
2007-2009	Protected areas, cooperation and representation of nature, funded by CRT Foundation
2006-2007:	Integrated Landscape Park, a plan for an innovative and responsible landscape governance of “marginal” areas, Interreg III, Associazione Culturale, Marcovaldo, di Caraglio (CN)
2007-2009	The two emerging economic powers (China and India) and their relationship with the economy of Italy and the Piedmont Region, funded by CRT Foundation Department. Cognetti de Martiis” University of Turin
2004	Environmental Policies in Decentralized Governmental system: a Blueprint for Optimal Governance (Peng), Department. Cognetti de Martiis” University of Turin

Abroad Experiences
2014 University of Buenos Aires, Facultad de Agronomia- Universidad de Buenos Aires, UNICOO grant. Tutor: Prof. Ugo Cetrangolo (2 months)
2008 Field research in Tanzania-Arumeru District within the project PARCO (3 months)
2006 Global Institute for Sustainability-Arizona State University (4 months) during PhD, Tutor: Prof. Charles Perrings (6 months)
Awards
Buy Green Award 2019, Section Green Tender for public administrations who adopt green criteria in tender "For the installation and management of eco-innovative vending machines for the administration of food and beverages at the offices of the University of Turin. The call rewards environmental innovation, eco-design, circularity, the reduction of impacts, the involvement of the market and information "
April 2019, Best paper award for Green as decision-making driver for planning infrastructures and actions /5° International Workshop di UI GreenMetric - World University Rankings (IWGM 2019), "Sustainable University in a Changing World: Lessons, Challenges and Opportunities" Cork 14 -16 april 2019.
November 2018: the project UnitoGO eco-innovative vending machine service has been selected as best practice by of the Network of Sustainable University-WG Waste and presented during the meeting, "La gestione dei rifiuti nelle Università: verso un modello di Economia Circolare, 6 November, Ecomondo, Fiera-Rimini.
January 2017: With the project UniToGO#Food#Lab (I work at the project idea and I write it) UniToGO won the call Smart Food Communities of the City of Torino. It's a lab that by using not formal education tools works to strengthen food and nutritional education.
May 2017: The website http://www.systemicfooddesign.it/ implemented by University of Gastronomic Sciences, Italy won the EWWWR 2016 Awards. It is an interactive and educational tool aiming to prevent waste generation by explaining the complexity of agrofood products and their packaging, throughout the whole supply chain. Here I work in the redaction of the content of the 20 different supply chain and in the design of the assessment methodology of the sustainability.
2013-winner of the Unicoo grant , University of Turin for outgoing mobility with the project "The resilience of agriculture cooperatives in the Quebrada of Humahuaca, Argentina.
2009- winner with Matteo Puttilli of a competition for the funding of starting project ideas within the Department of Territory, Polytechnic of Turin for a research on the relationship between biodiesel supply chains and territory.
2004-Prize Michele Fontana for the best thesis in the academic year 2002/2003 on environmental economy, competition at national level
Teaching: Workshop, courses, lesson and exercitations
For the academic years 2019-2020, 2020-2021, 2021-2022 Contract Professor at the University of Gastronomic Sciences (24h) for the Course " Systemic Design for Circular Economy, Master Degree in Food Innovation & Management]
Avril 21 and November 3 2021 (6h). E' la somma che fa il totale! Addendi per (ri)pensare gli effetti del sistema alimentare sul riscaldamento globale. Online training for the project " "Insieme per l'Ambiente! Sensibilizziamo le nuove generazioni sulla giustizia climatica" funded by Ministero del Lavoro e delle Politiche Sociali Direzione Generale del Terzo settore
Maggio 7, 8 e 13, 2019, Modulo La sfida di comunicare il cambiamento climatico, Laboratorio sulla comunicazione dell'ambiente all'interno del corso di comunicazione pubblica e politica della Prof.ssa Roncarolo (6 h) in collaborazione con Maggolini M, Stecca S., Cassardo C.
Aprile 17, 2019, Laboratorio sull'economia circolare applicata al settore della ristorazione presso Istituto Alberghiero Prevert di Pinerolo nell'ambito del progetto ALCOTRA App.VER per la curvatura green dei curricula scolastici (3 h).
November 8, 2018, Contamination Lab University of Turin and Polytechnic of Turin. Lesson about UniToGo and the GPP in the University as a tool of ecoinnovation for the Challenge "Food conservation and Sustainability"
October 19, 2108, SprecAPP, the Digital against the Food Waste, Workshop about the project of the Food Atlas for the collection of best practices against food waste
May and November 2017/2018, Conservatoria delle Cucine Mediterranee, IHP: RFS - Rethinking Food Security: Agriculture, People, and Politics –, Torino (12 h)
March 20, 2018, #UniToGO#Food#Lab: Studenti e spazi del Cibo, Campus Luigi Einaudi, Torino.
Avril 2017, Università degli Studi di Torino, Unito Gree Office, Fondazione Accenture, Workshop about SDGs and Project Cycle Management, Leadership Training, 27aprile, Torino (2 h)
Avril 2017 e 2018, IULM e Scuola Politecnica di Design, modulo I"Sustainability, Food and Agricultural systems", Master Course in Food Design and Innovation, Milano, 5 aprile (8 h)
March 2017, Università degli Studi di Torino, Geography and agricultural commodities, modulo Geografia del Cibo, Master in Sostenibilità socio-ambientale delle reti agroalimentari (2 h)
June 2016, Università di Scienze Gastronomiche, Approccio Sistemico applicato alla gastronomia con F. Fassio, Master in Food Culture and Communications Human Ecology and Sustainability (12 ore)
October 2015, Politecnico di Torino, Workshop Orti urbani nell'ambito della conferenza AESOP, localizing urban food strategies. Farming cities and performing rurality. 7th International Aesop Sustainable Food Planning Conference, Torino, 7-9 October 2015 (6 h)
Avril 2015, Cattedra Unesco, Università degli Studi di Torino, Corso su la sostenibilità sociale & in particolare quella delle filiere agroalimentari attraverso la metodologia della S-LCA, Master in "Sostenibilità del territorio e filiera agro-alimentare" (9 h).

March 2015, Politecnico di Milano, Master In service design, modulo sulla valorizzazione dell' agroecosistema locale nel corso di Service Design about Food Sustainability: a new model for Slow Food Presidia (36 h)
Dicember 2014, Dipartimento di Scienze Agrarie, Forestali e Alimentari, lezione su strumenti per la valutazione della sostenibilità delle filiere ortofrutticole, dal prodotto al sistema nel corso di Arboricoltura (3 h)
October 2014, Università di Scienze Gastronomiche, Approccio Sistemico applicato alla gastronomia con F. Fassio, Master in Food Culture and Communications Human Ecology and Sustainability (12 h)
June 2014, Cattedra Unesco, Università degli Studi di Torino, Corso su la sostenibilità sociale & in particolare quella delle filiere agroalimentari attraverso la metodologia della S-LCA, Master in "Sostenibilità del territorio e filiera agro-alimentare" (12 h).
October 2013, Università di Scienze Gastronomiche, Approccio Sistemico applicato alla gastronomia con F. Fassio, Master in Food Culture and Communications Human Ecology and Sustainability (12 h)
Avril 2010-June 2010, Università degli Studi di Torino, Lezione ed esercitazione nel corso di Geografia politica ed economica sul tema Termovalorizzatori e impianti di smaltimento dei rifiuti nel rapporto fra cittadini e istituzioni (12 h)
March2010 -May 2010, Università degli Studi di Torino con Giorgio Garelli (responsabile Settore Affari Internazionali , Regione Piemonte, Esercitazione didattica all'interno del Laboratorio sul ciclo del progetto, presso la Facoltà di Scienze Politiche, Università degli Studi di Torino (12 h)
December 2009, lezione sulla Sostenibilità dell'adozione degli OGM nell'ambito del corso di Geografia Politica ed Economica del Professor Dansero, Facoltà di Scienze Politiche, Università degli Studi di Torino.
Aprile 2009- Giugno 2009, Università degli Studi di TorinoLezione ed esercitazione nel corso di Geografia politica ed economica del Corso di Laurea in Studi Internazionali, dello sviluppo e della cooperazione della Facoltà di Scienze Politiche. Agli studenti sono stati presentati i concetti basilari relativi alla gestione del rischio e hanno partecipato ad un'esercitazione applicata ad un preciso contesto territoriale per la raccolta di dati sensibili funzionali all'analisi della resilienza locale(12 h)
Dicembre 2009, lezione sulla Sostenibilità dell'adozione degli OGM nell'ambito del corso di Geografia Politica ed Economica del Professor Dansero, Facoltà di Scienze Politiche, Università degli Studi di Torino.
Giugno 2008, lezione sulla crisi alimentare nell'ambito del corso di Geografia Politica ed Economica del Professor Dansero, Facoltà di Scienze Politiche, Università degli Studi di Torino.
Dicembre 2007, lezione sull'adozione degli OGM in America Latina e approfondimento sul caso studio argentino nell'ambito del corso di Economia dell'ambiente (avanzato) della Professoressa Dalmazzone, Facoltà di Scienze Politiche, Università degli Studi di Torino.

Nadia Tecco, Elisa Vecchione, (2008). Italy and Kyoto Protocol: Perspectives of Italian Collaboration Wight China and India through the Clean Development Mechanism, III AERNA Conference Spanish-Portuguese Association of Natural Resources and Environmental Economics, 4-5-6 June 2008, Palma de Mallorca, Spain
Nadia Tecco (2007). Different paths of adoption between RR soybean and Bt Cotton in Argentina; what are the main reasons?

Paper presented at the international conference on the issue "Agricultural Biotechnologies: New Frontiers and Products – Economics, Policies and Science", July 27-30 2007, Ravello.
Nadia Tecco, (2007). GMO technology diffusion and sustainable agriculture in developing countries: the case study of RR soybean in Argentina. Paper presented Summer School in Environmental and Resource Economics on the topic "Trade, Property Rights and Biodiversity, 4-10 July 2007, Venice.
Nadia Tecco (2006), Sustainable investments in water sector. Paper presented at the International Seminar "Sustainable Investment and Global Environmental Governance", January 23 January 2006, Vrije Universiteit, Amsterdam.

MANAGEMENT AND COORDINATION SKILLS

Thanks to the work experience I have gained over the years, I have developed a good capacity for coordination of project activities (theoretical and into more applied field research) and mediation. The work in the European projects has also helped to confront and to learning tools of project cycle management and financial reporting.

ANALITICAL-TECHNICAL SKILLS

Skills in dealing with the themes and disciplines that compete to the sphere of sustainability sciences, using methods and techniques for its surveys, regarding the economic aspects (contingent valuation, hedonic prices, indicators), environmental (LCA indicators) social (social LCA, sustainability reports).

INFORMATICS SKILLS

Word, Excel, Outlook Express, Power Point, Access, Project Management software (Project Manager, Advanced Time Report, Projectivity, Basecamp), ESRI (Arc view, Arc info), STATA, SPSS, E-learning platform (Moodle), software for bibliography management such as Endnote, Mendely, Zotero.

LANGUAGES

- Italian : mother tongue
- English : Advanced in comprehension, writing and speaking
- French, Spanish, Deutsch: Intermediate in comprehension, basic in writing and speaking.
